

ID 3000™

Disconnection blocks 10 pair modules

ID 3000™ disconnection block 100 pairs

Swivel adapter for ID 3000™ blocks

The insulation displacement connection system is the result of further innovative development of 3M Telecommunications valued world-class IDC contact technology.

The multiplicity of applications ranges from medium- and large-sized communications distributors up to main distributors for analogue and digital local exchanges.

The compact design facilitates miniaturisation which approaches technical limits and forms the basis of the considerably increased component packing density while simultaneously reducing the weight of the equipment. The modular design allows the user selective application of entire blocks or individual components.

The ID 3000™ system facilitates conventional assembly of disconnection blocks on the existing frame or a purely vertical modular assembly on ID 3000 profile rails. The modular design facilitates the fitting of dissimilar 8 pair and 10 pair disconnection elements on a profile rail. Thus each individual block size can be achieved. Individual disconnection elements can be subsequently replaced without difficulty; the cabling remains in-situ.

To round off the ID 3000™ system, 3M Telecommunications offers comprehensive overvoltage protection as well as an economical and wear-resistant mounting tool, in addition to a wide range of accessories, such as test leads, disconnection plugs, etc.

Features

- modular systems
- high density
- overvoltage protection from the rear

Benefits

- high flexibility in application
- cost savings through space savings
- any time protection at the area of operations

Disconnection blocks

ID 3200 disconnection block

200 pair a,b, with backmount frame, for vertical mounting on existing distribution frames PU: 1 pce., Weight: 1.42 kg, Dimensions (HxWxD): 346x119x125 mm

15-700-01500

Swivel adapter

for mounting on a 200 pair ID 3000™ block to swivel the block for easier handling, PU: 1 pce., Weight: 0.44 kg, Dimensions (HxWxD): 23x64x124 mm

41033-501 00

Overvoltage protection

10 pair overvoltage protection magazine

vacant, for 3-pole surge arrester, Colour: RAL 9005, dark black, PU: 10 pcs, Weight: 0.4 kg/10 pcs.

62126-504 00

3-pole surge arrester

230 V, 2.5 kA, with Fail-Safe, Weight: 0,007 kg/pce. Dimensions (HxWxD): 5 x 7.5 mm

05-661-03190

Tools

Comfort tool

scissor acting with integrated pulling hook, for contacting and cutting off wires from 0.32 - 0.8 mm diameter, PU: 1pce Weight: 0,08 kg/pce.

62397-513 00

Test leads

Test lead 4-pole

to connect test equipment to ID 3000 disconnection equipment, connected with 4 banana plug bushings (Ø 4 mm), Length: 290 mm, PU: 1 pce, Weight: 0,04 kg/pce.

62054-536 00

Disconnection Plugs

1 pair disconnection plug

Colour: brown, PU: 100 pieces, Weight: 0,03 kg/100 pcs.

62122-521 30

5 pair disconnection plug

Colour: brown, PU: 20 pcs, Weight: 0,04 kg/20 pcs.
Other disconnection plugs on request.

62122-525 30
